

2MWh Tirana Energy Storage Container for Wastewater Treatment Plant

Overview

What is a containerised portable waste water treatment plant?

A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable waste water volumes to achieve any effluent quality.

What is an intelligent containerised waste water treatment plant?

Intelligent containerised waste water treatment plants are ready to use immediately on delivery. A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary.

How do mobile sewage treatment plant containers work?

All our mobile sewage treatment plant containers operate in both underload and overload conditions Fully automatic operation and simple maintenance by unskilled staff The modular system allows for rapid expansion and addition of further treatment processes The systems are fully transportable and can easily be relocated and reinstalled at new sites.

What is a modular containerised sewage treatment system?

The modular containerised system with the various components of a waste water plant is customised to meet customer's requirements and can be easily transported by land and sea. As all the sewage treatment equipment is preinstalled and factory tested, onsite installation work is limited and basically Plug & Play.
