

3000W retractable solar panel

Overview

What is included in a DIY solar installation kit?

Request a quote Complete 3kW DIY solar panel kit for home installation. Each DIY solar install kit includes solar panels, microinverters and racking.

Where can I buy solar panels?

We will customize the system for your property and calculate how much energy your solar panels will produce for you. Wire, conduit, fittings, breakers, AC/DC Disconnects (if required), junction boxes and a sub panel (if required) can be purchased at any electrical supply shop, Home Depot or Lowes.

Which solar panels are best?

1. Tier 1 Solar Panels 2. Enphase IQ8 Microinverters 3. Ironridge Racking and Mounting 8 tier-1 solar panels convert the sun's energy to electricity and come with 25-year warranties. Cut from a single source of silicon, monocrystalline solar panels are more efficient than their polycrystalline counterparts, blended from multiple silicone sources.

Should you go DIY for your solar installation?

Going DIY can save you \$10,000 or more, depending on system size. Tax credits still apply for equipment, hardware and any other installation services you utilize. You get to make decisions on equipment selection, location of solar panels and timeline for your installation. GoGreenSolar is with you every step of the way during your installation.
