

350kW Solar Container Lighting for Urban Lighting

Overview

What is a shipping container solar lighting kit 3?

Our Shipping Container Solar Lighting Kit 3 provides lighting in oversized shipping containers and storage areas with 2 days of battery technology for cloudy, rain, or snow days with 8 hours per day of run time.

What are solar lighting fixtures for shipping container?

Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you with enough light to get equipment or supplies out of the container, up to high-quality lighting, and allow you to use the shipping container as a workshop and have enough light to do fine detailed work.

How many lights do you need in a container?

The number and type of lights are all based on your actual lighting needs inside the container. If you are using the containers just for general storage and do not have to read the fine print on items, then one or two fixtures might be all you need. If it's a more significant 40 FT container, 3 or 4 fixtures might be the solution.

How do I light a shipping container?

A good secondary option is to have Solar kit-powered LED Floodlights shining into the container. They are mounted on the twist-tight lock with magnets to provide external lighting around the Shipping Container. We also offer vapor-tight and explosion-proof LED container lights and LED Floodlights.
