

# 60kWh Mobile Energy Storage Container in North America

## Overview

---

What is a 5 MWh battery energy storage system?

CPS is excited to launch the new 5 MWh Battery Energy Storage System for the North American market. The battery system is a containerized solution that integrates 12 racks of LFP batteries and offers a high energy density for utility applications.

Will 100mwh project support growing ERCOT grid?

100MWh Project will Provide Services to Support Growing ERCOT Grid HOUSTON - ENGIE North America . ENGIE is a leading energy storage company in North America and offers reliable, cost-effective battery systems that increase your energy investment returns and generate revenue.

How many kWh can a power Leaf battery store?

The Power Leaf solution is scalable from 7.6 kW/5 kWh to 12 kW/20 kWh with up to four stackable battery units when connected to the CPS single-phase hybrid inverters. The 5-20 kWh batteries are UL9540 certified with the CPS 7.6-12 kW single-phase hybrid inverters as a complete energy storage system (ESS).

How many energy storage projects does Engie have in North America?

Today, ENGIE has 3 grid-scale energy storage projects in North America with the capacity to deliver 520 MW of power to the grid and another 2 GW under construction. These projects support the growing demand for renewable energy and enable greater reliability and resilience on power grids, while enabling the net zero energy transition.
