

# ASEAN Perovskite solar Glass

## Overview

---

What is a perovskite solar cell?

See news about Perovskite Solar Cells We aim to use it in various buildings as 'glass that generates electricity.' Our perovskite solar cells have a power generation layer formed directly on a glass substrate, allowing flexibility in size, transparency, and design.

What makes Aisin perovskite solar cells unique?

AISIN's perovskite solar cells feature high power generation efficiency, which is realized through more than 20 years of R&D on solar cells, and high durability, which is derived from a proprietary film structure using thin glass by leveraging the manufacturing capabilities cultivated in the manufacture of automotive components.

What is Panasonic glass-based perovskite photovoltaic?

Panasonic Glass-based Perovskite Photovoltaic enables on-site power generation in harmony with the buildings. Manufactured using glasses with strength and thickness that comply with the Building Standards Act. Conversion efficiency of 804□ perovskite module (18.1% efficiency certified by a national institute)
