

Aarhus Electrochemical Energy Storage Policy in Denmark

Overview

What is Danish Center for energy storage?

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen cooperation, sharing of knowledge and establishment of new partnerships between companies and universities.

How can Denmark develop a new energy technology?

If Denmark shall succeed in the development and implementation of new energy technologies such as energy storage and conversion, a broad knowledge of political and legal frameworks, economic models, the role of civil society as well as new forms of organization and collaboration across sectors and disciplines is necessary.

Will gas storage Denmark increase filling levels ahead of winter season?

The Danish Energy Agency has requested Gas Storage Denmark to initiate a tender aimed at increasing the filling levels of Denmark's two underground gas storage facilities ahead of the winter season. 08. July 2025.

What is the Danish Energy Agency?

Power in the outlet. Heat in the radiator. Light in the street lamps. It all takes energy. The Danish Energy Agency is responsible for ensuring a secure and green energy supply — affordable and shared by all.
