Overview

Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

What is the largest combined solar and battery energy storage system?

Delivering up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the largest combined solar and battery energy storage system (BESS) in the world.

Is Dubai a good place to invest in solar power?

The region does boast some of the world's most ambitious solar PV projects, such as the Mohammed bin Rashid Al Maktoum Solar Park in Dubai, which has a planned 5GW generation capacity by 2030 from both solar PV and concentrated solar power (CSP).

How will the solar power and battery storage project impact the economy?

The record-breaking solar power and battery storage project will create over 10,000 new jobs, driving innovation and economic growth
