

Albania imports energy storage batteries

Overview

Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

Is Albania a net energy importer?

Albania is a net energy importer. Between 2014 and 2018, the amount of net energy imported ranged from a low of 12% of the TPES in 2015 to a high of 46% in 2017. Net energy imports are directly correlated to annual rainfall, given that the electricity sector is almost entirely reliant on hydropower production.

Why does Tirana need Vega Solar?

Furthermore, the country is exposed to drought and often turns to emergency imports. Tirana-based Vega Solar, which develops, installs and maintains rooftop solar power plants, saw an opportunity to contribute to diversification with battery energy storage systems.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.
