

Are Iceland s 5G base stations shared by telecom operators

Overview

Will Iceland get 5G?

The uptake of 5G in Iceland is expected to be faster than for any previous generation of mobile technology, according to the Ericsson Mobility Report (November 2021). Iceland's largest telecommunications company Síminn will work with Ericsson to further develop their nationwide 4G network and accelerate their 5G expansion.

How will 5G technology improve the telecommunications network in Iceland?

Through a Memorandum of Understanding signed in the same month, the two parties also announced their intention of extending the cooperation on 5G technology to realize the best telecommunications network in Iceland in terms of radio coverage, stability and bandwidth to ensure the reliable service quality and the enhanced experience.⁵⁶

Will Ericsson & siminn move from 4G to 5G in Iceland?

In May 2019, Siminn (Iceland Telecom), which has the largest market share of data subscriptions in Iceland, and Ericsson have signed an agreement for the modernisation of the operator's radio access and core networks by deploying Ericsson Cloud Packet Core portfolio upgrades to support the transition from 4G to 5G in Iceland.

Which telco has the best coverage in Iceland?

Síminn is the market leader with the best coverage, followed by Sýn (still good) and Nova in 3rd place (mainly in the southwest). Síminn (aka Landssíminn) is the old state telco which still has the best coverage and speeds throughout the country and is market leader in Iceland at slightly higher rates.
