

Australia BESS solar folding container wholesale

Overview

What is a Bess energy storage system?

It is designed to provide backup power, intelligent energy storage management and integration with a wide variety of inputs and outputs. Available in either a 10ft, 20ft or 40ft ISO CSC container, the BESS is designed to be cost-effective, safe, easy to transport, scalable and integrated to the specific energy requirements of our clients.

Can a Bess & Solar System benefit your business?

Shell Energy can design a solution with you and your landlord to ensure you are able to benefit from a BESS and solar without having to invest in, own or maintain a solar system. At Shell Energy, we understand how the combination of solar and BESS together can help Australian businesses on their decarbonisation journeys.

What is a battery energy storage container (BESC)?

We've partnered with specialist engineers to integrate advanced features such as explosive pressure vents, pressure release valves and a negative air unit. Storemasta's Battery Energy Storage Containers (BESC) offer an advanced, secure solution for housing your Battery Energy Storage System (BESS).

Why should you install a Bess?

It doesn't matter what your solar infrastructure currently looks like, a BESS can help you maximise the value of your energy. There are a number of benefits to installing a BESS, such as managing consumption from the grid during peak periods, reducing energy costs, and unlocking revenue opportunities through Demand Response.
