

Australian capacitor energy storage equipment company

Overview

Who is Hi-Cap energy?

Hi-Cap Energy is a Brisbane based provider of on-grid and off-grid energy storage solutions. We supply and install high capacity batteries for solar as well as commercial and industrial applications. HCE supplies a large range of battery storage equipment for solar and industrial applications.

Who makes the best battery inverter in Australia?

Known for both inverters and battery solutions, Sungrow's PowerTitan and PowerStack deliver strong performance for large-scale projects. Its global supply chain strength ensures availability and support for Australian customers. A major player in lithium battery manufacturing, BYD supplies modular residential and commercial energy storage systems.

Where are Australia's battery storage projects located?

The projects are located in New South Wales, Victoria and the Australian Capital Territory. The Tramway Road Battery Energy Storage System is their largest project to date, with a capacity of 300MW and a performance of 1200 MWh. Battery storage developers are playing a vital role in Australia's energy transition.

Who is stor-energy?

Stor-Energy is a leading and specialist developer, owner and operator of large-scale battery storage systems across Australia's national electricity market. The company, CitiPower and Powercor, empowers communities by providing them with choices on how to generate, store, use, and sell energy, supporting the transition to a clean energy future.
