Where is Tata Power's power storage system located?

It will be centrally monitored and controlled from Tata Power’s Power System Control Center (PSCC) in Mumbai, which has operated as a load dispatch centre since 1950. The storage system will connect to the city’s electricity distribution network to serve multiple functions.

How will Tata Power's Bess deployment fulfil energy storage obligations?

Additionally, Tata Power’s BESS deployment will also fulfil energy storage Obligations. The entire 100 MW system will be installed across 10 strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power’s Power System Control Center (PSCC).
