

Battery storage cabin prices in Milan Italy

Overview

Why is energy storage important in Italy?

As electricity prices continue to rise and Italy accelerates its shift toward renewable energy, reliable and efficient energy storage has become essential for both homeowners and businesses.

Does Italy have a battery storage market?

Italy has both a rapidly growing utility-scale market as well as a flourishing customer-sited battery storage market. Customer-sited storage adoption has been mainly driven by a combination of high electricity prices and generous tax incentives.

Why is Customer-Sited storage so popular in Italy?

Customer-sited storage adoption has been mainly driven by a combination of high electricity prices and generous tax incentives. For utility-scale systems, Italy has established favourable electricity market rules that enable projects to earn revenues from a range of different sources.

How many GW of battery storage will Italy have by 2050?

The remaining 3-4 GW is expected to come from utility-scale systems. By 2050, Italy aims to achieve 30-40 GW of storage capacity. There are significant regional differences in the adoption of battery storage systems across the country.
