

Belmopan grid-connected solar panel manufacturer

Overview

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

What is a grid-tie Solar System?

A grid-tie solar system is the best solution if you are currently connected to the grid and want to save on your utility bill. A grid-tie solar system with battery back-up is the best solution if you are currently connected to the grid and want a solar back-up for grid outages.

Is a grid-tie Solar System a viable option?

If your monthly electricity bill exceeds BZD 500 and your energy consumption is mostly during the day, then adding a grid-tie solar system with or without battery back-up is more economically viable than going completely solar off-grid. Will my grid-tie solar system stay on during a grid outage?

.

What is off-grid solar?

It provides solar energy for your daytime needs and allows surplus energy to flow to the integrated batteries, providing peace of mind at night or during power outages. Off-grid Solar empowers you with self-sufficiency and independence. Discover the perfect solution for your remote cabin, communication site or island retreat.
