

Benefits of using solar panels

Overview

What are the benefits of solar energy?

- Kaiga -Karnataka and •Kakarapara - Gujarat Solar Energy
- Sun rays tapped in photovoltaic cell can be converted into energy
- Easy to construct, eco friendly
- It is 7% more effective than coal or oil-based plans 10% more effective than nuclear plants 262
- Used in heaters, hair dryers cookers etc.

Why should you install a solar energy system?

At the end of 2016, the current tax credit offered to solar energy system owners will decline from 30 percent to 10, resulting in less federal investment in the solar sector. This is one of the most important reasons why consumers and commercial owners decided to have a system installed.

Are solar panels good for the environment?

Solar panels can generate electricity without producing planet-warming carbon dioxide and, as a result, reduce air pollution. Installations also tend to have a smaller carbon impact than fossil-based extraction, minimizing disruption to the ecosystem and wildlife habitats.
