

# **Bidding for the Amsterdam solar container communication station Wind and Solar Complementary Project**

## Overview

---

Are floating solar panels coming to Hollandse KUST Noord?

The first floating solar panels for the Hollandse Kust Noord (HKN) offshore solar farm have arrived at the Port of Amsterdam, set for installation at the Dutch CrossWind HKN offshore wind farm.

Why is the port of Amsterdam launching a floating solar project?

Dorine Bosman, Chief Investment Officer at the Port of Amsterdam, said the project underlines the port's role in supporting new energy technologies. "The Port of Amsterdam is proud to host innovations which have the potential to accelerate the energy transition, such as the Oceans of Energy floating solar concept.

How will the Hollandse KUST Noord wind farm impact offshore solar projects?

"The innovation program of the Hollandse Kust Noord wind farm paves the way for key technologies that may further enhance offshore wind projects," said Maria Kalogera, Innovations Manager, CrossWind. "The offshore solar scope is an exciting innovation that can contribute to more renewable energy production from the same site."

What does the Dutch solar project mean for the future?

Supported by the European Commission and the Dutch Ministry of Climate and Green Growth, the deployment highlights a model for future offshore energy integration, combining solar with wind and hydrogen energy production, the Dutch company said.
