

# **Bolivia Liquid Cooling Energy Storage Cabinet BESS**

## Overview

---

What is a Bess 365kwh energy storage system?

**BESS-365kWh Liquid-Cooled Energy Storage System** The BESS-365kWh provides a strong balance between capacity and space-saving design, making it a cost-effective solution for commercial and medium-scale industrial use. Equipped with high-efficiency cooling and energy-dense LiFePO<sub>4</sub> cells, it offers high reliability and reduced maintenance.

How many kWh is a Bess cabinet?

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate (LFP) cells.

What is liquid-cooling energy storage system?

**LIVOLTEK BESS Liquid-Cooling Energy Storage System** adopts an “All-in-one” design concept, integrating high-capacity batteries, high-performance PCS, intelligent iEMS and BMS into a single unit. It is easy to deploy and scale, making it suitable for industrial parks, commercial complexes, and other grid-connected or off-grid applications.

What is a Bess 208kwh system?

The BESS-208kWh system is designed for high-efficiency operation in smaller commercial and backup power applications. It offers advanced temperature control, high cycle stability, and rapid deployment, making it ideal for energy cost optimization and emergency power scenarios. Key Features: 208kWh compact liquid-cooled system

## Bolivia Liquid Cooling Energy Storage Cabinet BESS
