

# **Botswana LTE emergency solar container communication station solar power generation system**

## Overview

---

Where is Scatec ASA building a solar power plant in Botswana?

In March, Scatec ASA began construction of a 100-megawatt solar power plant in Botswana's northeast. The initial 60 megawatts of this project are expected to come online by the end of this year. The Ministry of Minerals and Energy is also working on additional renewable energy projects.

Does Botswana have a commitment to solar energy?

The commitment to solar energy is evident in the policies and frameworks that support the development of renewable projects. By integrating solar power into the national energy strategy, Botswana aims to foster a more resilient and sustainable energy future.

How will Scatec power plant work in Botswana?

The power plant is Scatec's first in Botswana and will generate predictable revenues from a 25-year power purchase agreement (PPA) with Botswana Power Corporation, the national utility. The remaining 60 MW of the project is currently under construction and is expected to be completed in the beginning of 2026.

Will Botswana build a 100-megawatt solar plant?

Botswana has awarded a \$78.3 million contract to build a 100-megawatt solar plant to a consortium led by China Harbour Engineering Co. The project which is Botswana's second utility-scale solar facility is set to be completed in the second quarter of 2026.
