

Cameroon solar container outdoor power

Overview

Does Scatec have a solar power plant in Cameroon?

10 June 2024, Cameroon/Norway: Release by Scatec has entered into two new lease agreements with the national electricity company ENEO in Cameroon, expanding its existing solar and battery storage power plants in the country to 64.4 MW of solar and 38.2 MWh of batteries.

Can Cameroon use solar energy?

However, Cameroon's first large-scale wind and solar farms are being developed. The IEA lists only hydropower as renewable energy sources for Cameroon. 2014: 5068 GWh. Potential for solar exploitation is good: solar irradiation is around 5kWh/day/m². The Cellular telecommunications network is currently powered by solar energy.

How much energy will release supply in Cameroon?

When the extensions of the projects are completed, Release's projects in totality will supply energy to about 200,000 households in Cameroon, according to ENEO estimates, generating an annual production of about 141.5 GWh of electricity.

How can Eneo improve energy supply in Cameroon?

"In addition to improving electricity supply in Cameroon and significantly reducing the cost and CO₂ emissions from alternative generation based on diesel supply, these pioneering leasing contracts with ENEO are serving as a model for access to affordable clean energy for other countries and large energy consumers in the region.
