

Can the UPS and battery cabinet be separated

Overview

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

Are ups and battery cabinets dangerous?

The UPS and/or battery cabinets might be configured to look like standard computer equipment racks. There are two primary hazards of concern: electrical and fire. Open rack batteries expose potentially lethal voltage to any person coming in contact with them.

Can UPS batteries be installed outside?

UPS batteries should never be installed outdoors where they can be exposed to the damaging effects of sunlight. IEEE 1635/ASHRAE 21 is a good engineering reference for designing properly ventilated battery rooms and cabinets. Lead-acid batteries contain substances that are not good for the environment in which we live.

How do I set up an UPS battery room?

Open-rack battery rooms must be adjacent to the UPS room. Battery cabinets must be adjacent to the UPS equipment. Cable lengths from multiple cabinets should be kept as nearly identical as possible to prevent voltage drop variations. One cabinet should be able to hold at least one complete string of cells.
