

Canberra s new energy storage technology company

Overview

Is Canberra building a big battery in Williamsdale?

The ACT Government is building a big battery in Williamsdale. Construction has begun, in partnership with Eku Energy. This project is part of larger efforts to make Canberra a cleaner, greener city. Construction has begun the Williamsdale Battery Energy Storage System (BESS).

Will big battery power a third of Canberra households in 2025?

Canberra Times: ground breaking ceremony, plugging in profits from a big battery. ITP Renewables was engaged by Eku Energy to provide expert planning support throughout the development and delivery phases of the 250 MW Big Canberra Battery system, which will begin powering one-third of Canberra households from 2025.

What is the Big Canberra battery?

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future. For technical specifications of our work on the Big Canberra Battery, or to discuss engaging us on similarly ambitious battery storage projects, please contact our team.

What is the Williamsdale battery energy storage system?

Construction has begun the Williamsdale Battery Energy Storage System (BESS). The Williamsdale BESS is part of the ACT Government's Big Canberra Battery project. The beginning of construction is an important milestone in the ACT's journey toward a net-zero future. The Williamsdale BESS sits within the Evoenergy distribution network.
