

Central Europe makes double-glass components

Overview

What is glass for Europe?

Glass for Europe works to strengthen the industry's voice, impact and contribution across society and policy. It is composed of flat glass manufacturers, AGC Glass Europe, Guardian, NSG-Group, Saint-Gobain, and Şişecam, and works in association with national partners gathering thousands of glass and glazing companies from all over Europe.

Is the European glass industry ripe for transformation?

Gokhan Sen (pictured below), Chief Executive Officer of Ciner Glass, discusses the company's glass plant in Lommel, Belgium. The European glass manufacturing sector stands at a critical inflection point. After decades of underinvestment, the industry is now ripe for transformation.

Is glass a European standard?

With the new publication of CEN/TS 19100 the design of glass structures is now making its European standardization debut, paving the way for a Eurocode. Glass has become an increasingly important component of modern architecture, as brightness and transparency are an expression of a modern society being reflected in the built environment.

Who is AGC Glass Europe?

Based in Louvain-la-Neuve (Belgium), AGC Glass Europe produces, processes and distributes flat glass for the construction industry (external glazing and indoor decorative glass), the automotive industry (original and replacement glass) and solar applications.
