

Chad Portable Power Supply Customization

Overview

Who is custom power?

Custom Power has been an industry leader in the design and assembly of battery solutions since 1965. We supply battery pack assemblies in all chemistries across a diverse range of applications, from military equipment and medical instruments to emergency lighting systems and tracking devices.

What products does custom power offer?

Custom Power offers a comprehensive range of products and custom designs for lithium-ion, lithium polymer, primary lithium, nickel-metal hydride (NiMH), nickel-cadmium (NiCd) and alkaline batteries. Explore some of the specific product types we supply.

Why do we offer fully customized power module design & development services?

offer fully customized power module design and development services to meet unique product requirements We understand that every manufacturer, brand owner, and engineer has unique product requirements and that different markets have varying needs. That's why we offer fully customized power module design and product development services.

Why should I partner with custom power?

Custom Power partners with many top-tier battery suppliers to help create solutions optimized for your application. When you partner with Custom Power, you will work with some of the most knowledgeable and skilled engineers in the battery industry.
