

Chisinau s new energy storage base station power module

Overview

The Chisinau Energy Storage Power Station is part of Moldova's efforts to enhance its energy infrastructure. A new auction will be launched to build high-capacity renewable energy parks coupled with battery energy storage systems (BESS) in Chisinau¹. Additionally, a large-scale battery storage system is planned to be located at the Braila power station in the Chisinau municipality, which will contribute to the overall energy storage capacity in the region². These developments are aimed at improving energy security and integrating renewable energy sources into the grid.
