

# **Cost of using 100kW collapsible containers at Middle Eastern airports**

## Overview

---

Why does the Middle East prefer giant airport projects?

The Middle East bears witness to its preference for giant airport projects, which in themselves are testimony to its role as the world's intercontinental hub. Two projects in the UAE and Saudi Arabia weigh in at over USD60 billion between them.

Are there new airports in the Middle East?

The Middle East is dominated by two huge expansion projects in Dubai and Jeddah, but smaller airports seek to make their mark internationally. New airports in the Middle East are fairly thin on the grounds, mainly in Iran and Iraq, but additional facilities will probably be needed in Saudi Arabia.

How much do airport construction projects cost in Africa?

Source: CAPA - Centre for Aviation Airport Construction Database (ACD). There are 24 known infrastructure projects at existing airports in Africa, to a value of USD2.3 billion, or USD96 million each on average; well below the average figure elsewhere. Construction projects at existing airports in Africa tend to be on a smaller scale than elsewhere.

Which country has the largest new airport project in the world?

Brazil is also home to the largest new LAC airport project, at São Paulo, but it is not one that will be realised for many years yet. The Middle East is dominated by two huge expansion projects in Dubai and Jeddah, but smaller airports seek to make their mark internationally.
