

Discount on Off-Grid Solar Container Hybrid in Egypt

Overview

What is on-grid solar?

Our vision is to harness natural energy to power Egypt and the MENA region at the lowest possible prices. “A transition to clean energy is about making an investment in our future.” On-grid means your solar system is connected to your local utility grid. This is what most homes & businesses will use.

What is a hybrid power system?

A hybrid power system combines solar power from a photovoltaic (PV) system with another power-generating source. This is commonly done by using diesel generators along with your PV system, which hardly has any marginal cost always treated as a grid priority. Remote pumping has never been easier with our solar water pump systems.

What happens if you go off-grid?

When you go off-grid, you solely depend on a battery to store all the energy for your usage. This means that even on the gloomiest winter days, you will always have abundant energy stored for your requirements. A hybrid power system combines solar power from a photovoltaic (PV) system with another power-generating source.

Who is Solaire Egypt?

Investing in your future has never been easier. Solaire Egypt was officially established in 2020 after the partners, Ibrahim Hassaballa, Mohamed Ali and Amr Haridi met and realized they form a team with the perfect balance of expertise for renewable energy.
