

# **Distributor of 40kWh Mobile Energy Storage Containers for Marine Use**

## Overview

---

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.

Which ships use Corvus Energy Storage Systems?

Corvus has the largest installed base of marine energy storage systems in operation worldwide. Many of the world's first electric powered vessels use a Corvus energy storage system, including the first all-electric fast ferry, tanker, workboat, harbour tugboat, commercial fishing vessel, and more.

What is containerized energy storage?

ABB's containerized energy storage solution is a complete, self-contained battery solution for a large-scale marine energy storage. The batteries and all control, interface, and auxiliary equipment are delivered in a single shipping container for simple installation on board any vessel. How does containerized energy storage work?

.

How does a maritime energy storage system work?

The maritime energy storage system stores energy when demand is low, and delivers it back when demand increases, enhancing the performance of the vessel's power plant. The flow of energy is controlled by ABB's dynamic Energy Storage Control System.
