

Dubai New Energy solar Site Energy

Overview

What is Dubai solar plant?

The Dubai Solar Plant is the world's largest single-site solar energy project, based on the Independent Power Producer (IPP) model. It has been implemented by the Dubai Electricity and Water Authority (DEWA). The Dubai Solar Park, which will cost AED 50 billion to build, is expected to produce around 5,000 MW by 2030.

Why is Dubai launching a solar park?

It was launched in 2012 by His Highness Sheikh Mohammed bin Rashid Al Maktoum, the Vice President and Prime Minister of the UAE and the Ruler of Dubai. The development of the solar park will further boost Dubai's status as a global leader in the clean and renewable energy sector.

How much does a solar project cost in Dubai?

The solar project will be commissioned in 2022 and is bound to offer the lowest solar energy tariff—AED4.97 fils/kWh (US1.35 cents/kWh) all over the world. As of now, Dubai managed to achieve an installed capacity of more than 1 GW, most of which comes from Phase I, II, and III of MBR solar park.

How much solar power does Dubai have?

As of now, Dubai managed to achieve an installed capacity of more than 1 GW, most of which comes from Phase I, II, and III of MBR solar park. In 2020, Dubai exceed its target solar capacity, significantly increasing the region's share of renewable energy in the total energy mix of the country.
