

Dublin s need for outdoor power

Overview

Why do we need electricity in Dublin?

Dublin's demand for electricity has grown and will continue to grow in the years ahead as we move to using electricity for heat and transport. These works allow us to meet our energy demands now and in the future.

Does Dublin need more power?

"Dublin needs more power," says EirGrid chief infrastructure officer Michael Mahon. "We need to transport energy to the point of use. The MetroLink, new Dart projects and electric buses all need more power, and they can't proceed without it."

How can we secure Dublin's Energy Future?

To secure Dublin's energy future, we need a compelling vision of what it will mean to people, their communities, and for jobs. It's important to persuade residents that the right infrastructure will guarantee our future. Opportunities include:.

Is solar power a good idea in Dublin?

Dublin is a city proving that solar power can be very valuable. Solar power is picking up steam in Dublin as the city is stepping up its climate action and sustainability.

Dublin s need for outdoor power
