

Energy storage profit model of Toronto power station in Canada

Overview

Does Toronto Hydro have a battery energy storage system?

Toronto Hydro recently installed a battery energy storage system (BESS) with Renewable Energy Systems Canada and support from the Province of Ontario's Smart Grid Funds. The Bulwer BESS project is a 2 MW/2 MWh BESS located at the Bulwer Municipal Station (MS), a decommissioned 4.16kV Toronto Hydro electrical substation, located in downtown Toronto.

Why is Toronto Hydro developing energy storage projects?

Toronto Hydro has also been developing energy storage projects that focus on deferral of expensive infrastructure renewal and meeting the growing needs of Toronto.

When did energy storage start in Canada?

The first energy storage project in Canada, the Sir Adam Beck Pump Generating Station, came online in 1957. However, the next project did not come online until 2013. There are three main types of energy storage currently commercially available in Canada:.

How many energy storage projects are there in Alberta?

While there are nearly 50 energy storage projects currently listed within the Alberta Electric System Operator (AESO)'s projects list, the development of a 600MW portfolio of five solar-plus-storage projects by Westbridge Renewable Energy Corp. is underway.
