

# Energy storage wind power and new energy leader

## Overview

---

Will China's new energy storage sector become a global leader?

The country's new energy storage sector, which is currently in its early stages, is expected to evolve from a nascent market player to a global leader in the coming years, they said.

How many energy storage enterprises will China have by 2027?

As part of the government's push, China plans to cultivate three to five leading energy storage enterprises by 2027 and establish a regional clustering pattern to enhance the sector's innovation and market influence.

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.

## Energy storage wind power and new energy leader

### HyperStrong Retains Top Three Position in S& P Global Energy Storage

1 day ago · S& P Global Energy has recently released its latest 2025 Battery Energy Storage System (BESS) Integrator Report, once again ranking HyperStrong among the top three global ...

### [Global Energy Storage Growth Upheld by New Markets](#)

Jun 18, 2025 · The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

### [Energy Storage Leaders Converge in Xiamen: Executives ...](#)

5 days ago · On December 4, 2025, the "2025 China Energy Storage CEO Summit & the 10th International Energy Storage Innovation Competition - Preliminary Round" was successfully ...

### [China Rises to World Leader in New Energy Storage](#)

Sep 4, 2025 · The report shows that China's installed new energy storage capacity grew to 73.76 million kilowatts by the end of 2024--over 40% of the global total--with an average annual ...

[China leads the world in new-type energy storage capacity](#)

Sep 12, 2025 · China has emerged as a global leader in new energy technology and equipment, with its new energy patents accounting for more than 40 percent of the world's total.

[2025 Two Session Buzzwords: "New-type energy storage"](#)

Mar 12, 2025 · China has been a global leader in renewable energy for a decade. The buzzword "energy storage" at the 2025 Two Sessions underscores China's strategic focus on building a ...

[Top 10 New Energy Companies in China: Driving the Green ...](#)

May 21, 2025 · From battery innovation and solar module production to energy storage systems and wind power equipment, China's clean energy leaders are driving the global energy sector ...

### [Nation to become a global energy storage powerhouse](#)

Mar 31, 2025 · Wang said China has achieved an early global leadership position in the key technological field of new energy storage, which is critical for the large-scale development of ...

### [Winners Announced at the Energy Storage Awards 2025](#)

2 days ago · Now in its third year, the Awards highlight innovation, commercial leadership and technical excellence in energy storage, and reflect the rapid growth and evolution of the industry.

### [How China adds more renewable energy than any other ...](#)

Dec 3, 2025 · China's approach to renewable energy buildout combines large-scale investment, technological innovation and market reform. China is installing more renewables than any ...
