

Estonia 15GWh solar container battery project

Overview

Will Estonia become the largest Battery Park in continental Europe?

Estonia has laid the cornerstone for what will become the largest battery park in continental Europe, marking a crucial step toward synchronizing the Baltic power grids with the rest of Europe by 2025.

Can storage systems help reduce energy consumption in Estonia?

Estonia's climate minister, Yoko Alender, emphasized the role of storage systems in this transition, stating, "Estonia has a clear goal – by 2030, the amount of electricity we consume must come from renewable sources.

What is the Baltic storage platform?

The project, spearheaded by the Baltic Storage Platform—a joint venture between Estonian energy company Evecon, French solar producer Corsica Sole, and sustainable finance management company Mirova—aims to bolster energy security and support Estonia's transition to renewable energy. [Project Details](#).

Why is energy security important in Estonia?

As Estonia and its Baltic neighbors prepare for grid synchronization with the rest of Europe, energy security becomes a pressing issue. The ability to store and deploy energy as needed is crucial for balancing the power supply, especially as the region shifts towards renewable energy sources such as wind and solar.

Estonia 15GWh solar container battery project

[Construction ends at Estonia's largest battery park](#)

1 day ago · The battery park has been built in Kiisa, south of Tallinn, by the Estonian company Evecon, French solar energy producer Corsica Sole, and Mirova, a sustainable finance ...

[The cornerstone was laid for the largest battery park in ...](#)

Oct 8, 2024 · The cornerstone was laid today for the largest battery park complex in continental Europe, in Kiisa, Estonia, by Baltic Storage Platform. This is an important step to ensure the ...

[Estonia Energy Storage Project Construction Cycle Key ...](#)

This project utilized SunContainer Innovations's modular battery design, achieving 94% efficiency in energy conversion - 12% above industry averages for similar climates. Navigating ...

[Energy Storage: Estonia's Next Big Leap After the Solar Boom](#)

Sep 29, 2025 · The launch of the Auvere battery storage facility marks a turning point in Estonia's energy landscape. With a capacity of 53 megawatt-hours--enough to cover just 2-3% of ...

[Estonia begins construction on Europe's largest battery park](#)

6 October 2024 Estonia has laid the cornerstone for what will become the largest battery park in continental Europe, a major step toward synchronising the Baltic power grids with Europe by ...

[Solar Energy, Battery Storage Projects For Estonia](#)

Mar 12, 2025 · Sunly, in collaboration with Metsagrupp, is developing a 16 MW / 32 MWh battery energy storage system (BESS) next to the 45 MW Raba Solar Park in Pärnu County, Estonia. ...

[Estonia moves forward with a groundbreaking energy ...](#)

"Secondly, no one has yet built such a large complex of battery parks in continental Europe." The project also shows Estonia's ability to forge powerful international partnerships, uniting ...

[Estonia Lays Cornerstone for Europe's Largest Battery Park ...](#)

Oct 10, 2024 · Estonia has laid the cornerstone for what will become the largest battery park in continental Europe, marking a crucial step toward synchronizing the Baltic power grids with the ...

[Estonian Solar Project: 300 MW Plant Leads Green Energy Leap](#)

Apr 4, 2025 · Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.
