

European energy storage power generation projects

Overview

How many energy storage projects are there in Europe?

There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the European Commission. The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe.

What is the European energy storage inventory?

The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time dashboard for energy storage also includes their locations and technologies – chemical storage, electrochemical storage, mechanical storage, and thermal storage.

What is the largest energy storage project in Europe?

Particularly noteworthy is the ambitious project in Alfeld (Lower Saxony), which is considered the largest approved storage project in Europe with a performance of 137.5 megawatts and a storage capacity of 275 megawatt hours.

Which country has the most energy storage projects?

By far, the largest number of projects are located in the United Kingdom – 66 (6,2 GW). Italy is in second place (with 13 projects totaling 1.7 GW), followed by Germany (19 – 1.6 GW), according to the inventory. European Energy Storage Inventory – projects under construction by country

European energy storage power generation projects

The role of energy storage towards net-zero emissions in the European

Aug 15, 2025 · This study investigates the role of different energy storage technologies in a European electricity sector that complies with the target of net-zero carbon emissions in 2050.

...

[The European Energy Storage Inventory: A comprehensive ...](#)

Mar 8, 2025 · Europe's energy storage at a glance, efficient and future-oriented. A comprehensive inventory of energy storage solutions. Data and facts for experts easily ...

[New EU Platform Highlights Over 1771 Energy Storage Projects](#)

The European Energy Storage Inventory, developed by the Joint Research Centre (JRC) of the European Commission, is a new interactive platform that maps and analyzes over 1771 energy ...

[The changing shape of European energy storage , Wood ...](#)

Nov 26, 2024 · We categorise energy storage market players into six groups: developers, Investment fund, Independent power producers (IPPs), Independent flex provider (IFPs), ...

7 Game-Changing Energy Storage Technologies Reshaping Europe's Power

Dec 31, 2024 · The race to revolutionize energy storage stands at a critical turning point in 2024. As renewable energy adoption accelerates across Europe, the transformative potential of ...

[EU launches real-time dashboard for energy storage expansion](#)

Mar 6, 2025 · The aim of the European Energy Storage Inventory is to record all European energy storage projects by status - in operation, planned and under construction - by location and by ...

[Rapid expansion of Europe's storage - new report](#)

Apr 8, 2025 · The latest edition of the European Market Monitor on Energy Storage by the European Association for Storage of Energy and LCP Delta, released on 31 March, highlights ...

[14 GW of energy storage capacity under construction in Europe](#)

Mar 13, 2025 · The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time ...
