

Factory price single breaker in Sydney

Overview

The cost of replacing a circuit breaker typically ranges from \$115 to \$300, depending on the type of breaker and professional labor required. Basic Single-Pole Circuit Breaker - \$115 - \$150

How much does a 240V circuit breaker cost? A 240V circuit breaker, for example, can cost between \$10 and \$250. Factors that can contribute to the expense of installing a new circuit breaker include extensive drywall demolition and restoration, or running the wire up through multiple stories. The estimated cost for installing a dedicated circuit ranges from \$250 to \$900.

How much does rewiring a circuit breaker cost?

The cost of rewiring a circuit breaker depends on factors such as wiring type, length, and any necessary wall and drywall repair, ranging from \$150 to \$1,000+. The primary function of circuit breakers is to protect your electrical system from damage caused by overcurrent, short circuits, or ground faults.

How much does a circuit breaker cost?

The cost of the circuit breaker itself can range from \$15 for a basic single-pole breaker to over \$100 for a specialty breaker. Keep in mind that these prices can vary based on the brand and where you purchase the breaker. It's also worth noting that while it might be tempting to opt for the cheapest option, quality should not be compromised.

Who makes Rs circuit breaker accessories?

RS is a globally recognised and trusted supplier, distributor, and manufacturer of industrial circuit breakers and circuit breaker accessories. In addition to our own RS PRO line, we carry a wide range of types from top brands, such as MCCBs from Siemens, MCBs from Schneider Electric and even electronic circuit breakers from ABB.
