

Factory produces solar panels

Overview

Where are solar panels made?

The Shanghai-based company has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees - of whom 1,500 work in the firm's eight research and development centres. China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems.

What makes China's solar panel manufacturing industry unique?

In conclusion, China's solar panel manufacturing industry stands at the forefront of global renewable energy efforts, offering a vast array of high-quality products from leading manufacturers like Primroot.com, Jinko Solar, Trina Solar, and LONGi Green Energy.

Where are solar panels made in China?

Jiangsu Province is renowned as one of China's largest solar panel manufacturing hubs. Located on the east coast, it has the advantage of being near ports, which facilitates the ease of exporting solar panels. The province hosts a multitude of solar panel manufacturers in China, including Trina Solar, one of the world's largest.

What percentage of solar panels are made in China?

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North America each produce around 2%. It therefore makes sense that eight of the world's nine largest solar manufacturers are based in China.
