

Finnish energy storage solutions company

Overview

What is the future of energy storage in Finland?

Reserve markets are currently driving the demand for energy storage systems. Legislative changes have improved prospects for some energy storages. Mainly battery storage and thermal energy storages have been deployed so far. The share of renewable energy sources is growing rapidly in Finland.

Which energy storage technologies are being commissioned in Finland?

Currently, utility-scale energy storage technologies that have been commissioned in Finland are limited to BESS (lithium-ion batteries) and TES, mainly TTES and Cavern Thermal Energy Storages (CTES) connected to DH systems.

Is energy storage legal in Finland?

Like the energy storage market, legislation related to energy storage is still developing in Finland. The two are intertwined as who is allowed to own and operate energy storages will define the business models of the storages. A major barrier to the implementation of ESS was removed when the issue of double taxation was solved.

Is the energy system still working in Finland?

However, the energy system is still producing electricity to the national grid and DH to the Lempäälä area, while the BESSs participate in Fingrid's market for balancing the grid . Like the energy storage market, legislation related to energy storage is still developing in Finland.

Finnish energy storage solutions company

[Finnish Photovoltaic Energy Storage Companies: Leaders in ...](#)

Nov 1, 2020 · Finland might be famous for saunas and Santa Claus, but it's quietly becoming Europe's secret weapon in photovoltaic (PV) energy storage. With companies like Wärtsilä ...

[One of Finland's largest energy storage facilities ...](#)

May 16, 2025 · The energy storage facility delivered by Merus Power to Lappeenranta, Finland, has been completed and put into market use on 15 May 2025. The energy storage facility is ...

[Spotlight on Finland: Energy storage sector set to double](#)

Jul 29, 2025 · Finland's energy storage market is expanding, thanks largely to increasing renewable energy sources, plus regulatory adaptation being made by Fingrid, the transmission ...

Decent Energy Storage Solutions OY - Decent Energy Storage Solutions ...

Pioneering Energy Storage for a Greener Tomorrow At DESS , we specialize in Battery Energy Storage Systems that enhance energy stability and support renewable sources. We are ...

[A review of the current status of energy storage in Finland ...](#)

Jul 15, 2024 · Energy storage is one solution that can provide this flexibility and is therefore expected to grow. This study reviews the status and prospects for energy storage activities in ...

[Finnish Commercial Energy Storage Suppliers: Powering ...](#)

Well, you know Finland isn't just about saunas and northern lights anymore. Over the past 12 months, the country's installed commercial energy storage capacity surged by 187% according ...

[Directory of finnish home energy storage companies](#)

ESS is a leading provider of long-duration energy storage solutions ideally suited for C& I, utility, microgrid and off-grid applications. Using food-grade, earth-abundant elements like iron, salt, ...

[Top 10 Energy Storage Companies in Finland: A 2024 Guide](#)

Dec 2, 2024 · Finland Energy Market. Energy Storage Facilities Market Trends in Finland The countries of the North provide good security for environmental protection, and Finland has ...

[Top 51 Energy Storage Companies in Finland \(2025\) . ensun](#)

Heliostorage specializes in efficient energy storage, particularly through their innovative thermal energy storage solutions that help reduce carbon emissions and energy costs. By capturing ...
