

Free consultation on waterproof folding containers for data centers

Overview

What is a modular data center container?

IT containers based on the modular principle. Modular data centers in containers are the perfect, scalable solution – whether individually for SME, cloud and Edge applications, or as preconfigured data center containers. Growing data volumes and escalating requirements often lead to space problems in existing IT environments.

Are container solutions suitable for outdoor siting a big data application?

Growing data volumes and escalating requirements often lead to space problems in existing IT environments. Container solutions suitable for outdoor siting are one possible solution for this kind of Big data applications.

What are container solutions suitable for outdoor siting?

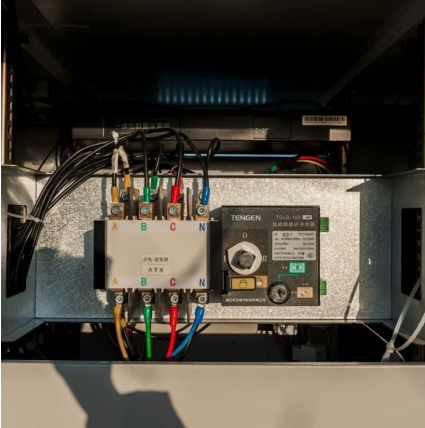

Container solutions suitable for outdoor siting are one possible solution for this kind of Big data applications. These container solutions are delivered pre-assembled, and can be up and running in next to no time.

What is a prefabricated modular data center?

Answer a few simple questions so we can connect you with a solutions specialist in your industry. Prefabricated modular data centers, also known as integrated modular solutions or containerized data centers, are engineered to meet business-specific requirements to fit in a right-sized secure infrastructure.
