

Fusion solar container communication station inverter

Overview

How does a fusion solar inverter connect to a phone?

Can connect to LUNA2000 batteries. The inverter connects to the FusionSolar Smart PV Management System through the 4G Smart Dongle. The inverter connects to a phone through a Smart USB-WLAN Adapter (shortened to WLAN module in this document), Bluetooth module, or a data cable.

How does fusionsolar smart PV management system work?

The inverter connects to the router through the WLAN-FE Smart Dongle, and then connects to the FusionSolar Smart PV Management System through the router. The Smart Dongle can connect to a third-party management system. The Smart Dongle supports WLAN hotspots. The master inverter connects to the FusionSolar app through its WLAN.

How does fusion solar inverter work?

The inverter connects to the FusionSolar Smart PV Management System through the 4G Smart Dongle. The inverter connects to a phone through a Smart USB-WLAN Adapter (shortened to WLAN module in this document), Bluetooth module, or a data cable. You can use the SUN2000 app to view the running information and set inverter parameters locally.

How does the fusion Solar Smart dongle work?

The inverter connects to the FusionSolar Smart PV Management System through the 4G Smart Dongle. The master inverter connects to the FusionSolar app. You can use the FusionSolar app to view the running information and settings of the inverter. The Smart Dongle can connect to a third-party management system. The Smart Dongle supports WLAN hotspots.
