

Gambia Electricity Company s new energy storage

Overview

Where can I find information about energy in Gambia?

Find relevant data on energy production, total primary energy supply, electricity consumption and CO2 emissions for Gambia on the IndexMundi Homepage. Find relevant information for Gambia on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

How much electricity will Gambia generate in 2025?

The Gambia's Electricity Sector Roadmap (2019-2025) aims to scale up electricity generation to 200 MW of available capacity at peak in 2025, with 14MW expected from the OMVG project with Guinea and Senegal, and 50MW from the Souapiti project and the remainder through Independent Power Producers (IPP).

What is the energy supply deficit in India?

The country is confronted with an energy supply deficit. Access to electricity is estimated at 56.2% of the population with only 13% access in rural areas. The current installed power capacity of 102 MW falls short of peak demand by 11 MW.
