

# **Gambia Energy Storage Explosion-proof Fan Product Introduction**

## Overview

---

What is an air circulation explosion proof fan?

Air circulation explosion proof fans include stand-mounted, wall or ceiling mounted, or beam-mounted options and are designed as a spot cooling fan for use in atmospheres that include flammable or explosive vapors, gas, or dusts. The non-sparking aluminum fan blades offer increased safety in hazardous locations.

What are explosion proof fans & blowers used for?

Our portable explosion proof fans and blowers are designed for hazardous applications requiring ventilation, including, but not limited to: clean rooms, laboratory hoods, oil refineries, grain mills, chemical plants, welding shops, chemical storage areas and battery changing areas.

Are explosion proof ventilator fans and blowers class rated?

The explosion proof fans and blowers we offer are all class rated, ideal for hazardous environments where the removal of stale air is required for clean and safe working conditions. These ventilator fans and blowers are based on CFM ratings, built with explosion proof materials, and can clear air laden with toxic fumes or dust.
