

Garden solar high quality irrigation system

Overview

Can a solar powered irrigation system be used with a garden extension kit?

Our range of solar powered irrigation systems can be installed to suit any garden watering needs when used in conjunction with our irrigation extension kits. Our Irrigation Units help you determine which irrigation kit you will need.

Which solar water pump kit is best for sustainable irrigation?

For those seeking a reliable solution for sustainable irrigation, the 3-Year Warranty Solar Water Pump Kit stands out with its high-efficiency stainless steel design. This submersible pump operates on solar energy, requiring four 100W solar panels for peak performance.

What is an irrigation kit?

An Irrigatia kit is ideal for small to large gardens, and can be used for potted plants, flower beds, raised beds, hanging baskets, vegetables and greenhouses. Our range of solar powered irrigation systems can be installed to suit any garden watering needs when used in conjunction with our irrigation extension kits.

How does irrigatia's large garden irrigation system work?

Our large garden irrigation system offers automatic watering powered by solar panels that detect changes in the weather and adjusts your garden watering accordingly. Irrigatia's expertly designed drip irrigation for potted plants will provide your plants with optimal watering conditions directly to where they need it - at the plant's roots.
