

# Guinea-Bissau double-glass solar curtain wall design

## Overview

---

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is a PV curtain wall?

The PV curtain wall is the most typical one in the integrated application of PV building. It combines PV power generation technology with curtain wall technology, which uses special resin materials to insert solar cells between glass materials and convert solar energy into electricity through the panels for use by enterprises.

Can a new glass curtain wall replace double glazing?

Usually it is installed on the wall facing the sun in the building, such as the southern wall in the Northern Hemisphere, the new glass curtain wall can replace the existing double glazing when it is used in the actual building. Fig. 1. Working principle of the new glass curtain wall.

Why are glass curtain walls a popular design in modern high-rise buildings?

At the same time, glass curtain walls are a popular design in modern high-rise buildings, because they are not only beautiful but also use natural lighting to reduce lighting energy consumption.
