

Hanoi Communications earliest 5g base station

Overview

How many 5G stations are there in 2025?

According to the Ministry of Science and Technology , as of early May 2025, network operators have installed 11,591 5G base transceiver stations (BTS), equivalent to 7.72% of 4G stations. About 26% of the population has access to 5G services. According to the plan, the number of 5G stations will gradually increase in the last months of 2025.

When did Vietnam start a 5G network?

On October 15, Vietnam launched its first commercial 5G network led by Viettel, marking a key moment in enhancing connectivity and supporting digital services.

Will 5G be commercialized in Vietnam?

According to the Ministry of Information and Communications, 4G coverage in Vietnam is currently 99.8%, higher than even developed countries with high incomes with only 99.4%. This is a step forward for 5G to be commercialized in Vietnam just a few months ago in October. Source: Vatvostudio.

When will Viettel 5G be rolled out in Ho Chi Minh city?

At present, Viettel High Tech's base transceiver stations have been certified by the Telecommunications Authority in June 2024. Viettel's 5G equipment has already been deployed in some provinces such as Hanoi, Da Nang, Ha Nam, and Ninh Thuan, and by the end of this year, it will be rolled out in Ho Chi Minh City and Da Nang.
