

# Hanoi solar Energy Storage BESS

## Overview

---

Is battery energy storage systems a new wave in Vietnam?

A New Wave in Vietnam's Energy Sector: Battery Energy Storage Systems (BESS)! Vietnam is at the forefront of a transformative shift towards renewable energy, with Battery Energy Storage Systems (BESS) emerging as a cornerstone technology in ensuring grid stability.

How much does a Bess system cost in Vietnam?

In 2023, EVN PECC3 estimated that the cost for a 2 MWh BESS system was 360-420 USD/kWh, and that the investment would requires electricity prices in Vietnam above 18 UScent/kWh to be profitable - this is twice the current levels. However, BESS costs are declining rapidly.

What is Bess & how can it help Vietnam?

Energy Management: BESS can help manage the intermittency of renewable energy sources, ensuring a balanced and stable supply of electricity. Vietnam has 20.1 GW of solar and wind power, and congestion in the electricity transmission grid sometimes lead to waste of electricity.

What is the current state of Bess in Vietnam?

The Current State of BESS in Vietnam As of 2024, Vietnam has practically no BESS installed. So far, only private renewable power projects have trialed BESS development, there is nothing at the utility scale. The largest electricity storage project in Vietnam is the Bac Ai Pumped Storage Hydropower Project.

## Hanoi solar Energy Storage BESS

---

### [BESS - The Key to a Green Power Grid and SolarBK's](#)

Sep 30, 2025 · Vietnam is entering a period of rapid energy transition, with solar and wind power among the fastest-growing in Southeast Asia. However, the weather-dependent nature of ...

### [Vietnam pushes ahead with battery storage market plans](#)

Sep 15, 2025 · Vietnam is accelerating efforts to develop a large-scale battery storage market, aiming to strengthen its renewable energy transition. On September 12, Hanoi hosted a ...
