

High quality 1000 amp breaker in Us

Overview

What is the function of a 100 amp breaker?

A 100 Amp breaker is a component of an electrical panel. When you have a larger amperage service like 200 Amps, the 100 Amp breaker is a part of your system that can handle up to 100 Amps. In a modern home with a 100 Amp panel, half of the safe capacity is used when one appliance is switched on. If there's an issue and you are lucky, the breaker will trip.
