

Ho Chi Minh Solar Inverter IGBT Module Factory Vietnam

Overview

Who makes solar panels in Vietnam?

In particular, the company produces monocrystalline and polycrystalline solar panels with current capacities that range from 3W to 320W. Located in the suburban area of Ho Chi Minh City, Vietnam, Solar Power Vietnam makes use of solar cells from Solar World (Germany) and Suniva (the U.S.A.).

Who is Vietnam green energy technology?

Established in 2017, Vietnam Green Energy Technology Co., Ltd. is a company that specializes in processing and manufacturing solar panels. The company's factory is over 20,000 m² in Tien Son Industrial Zone, Bac Ninh Province, Vietnam.

Where are PV inverters made?

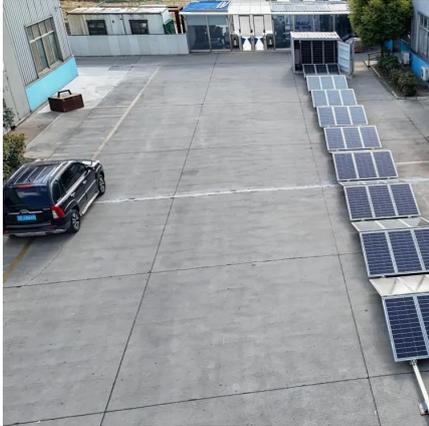

The plant specializes in grid-tied and hybrid inverters. GoodWe, a China-based PV inverter manufacturer, has started operations at its first overseas manufacturing plant in Haiphong, Vietnam. The facility covers approximately 14,800 square meters and will initially specialize in the production of grid-tied and hybrid inverters.

Why is Vietnam a good place to invest in solar energy?

The sunny quality of Vietnam's climate is actually a good sign right now because it means that this country can be a place where the solar industry can thrive. And the solar industry will thrive because there is already a growing demand for renewable energy nowadays and solar is arguably the most popular choice for renewable energy.
