

Household solar container battery in Gothenburg Sweden

Overview

Are stationary solar batteries gaining momentum in Sweden?

Installations of stationary domestic solar batteries are gaining momentum across Sweden. But there are major regional differences. In the first three quarters, 24,000 homeowners received a tax reduction ('green deduction') for installing a battery, compared to 14,000 in the whole of last year.

Where are capture energy batteries made?

Our batteries are produced in China, and then shipped, finalised and tested at Capture Energy's site in Gothenburg, Sweden. At the same time, the site where the battery will be installed is prepared for the installation according to manuals provided by Capture Energy.

How many kWh are in a battery storage container?

Each battery energy storage container unit is composed of 16 165.89 kWh battery cabinets, junction cabinets, power distribution cabinets, as well as battery management system (BMS), and the auxiliary systems of distribution, environmental control, fire protection, illumination, etc. inside the container; the battery container is 40 feet in size.

Are more people buying solar batteries than PV systems in 2021?

"More people are buying solar batteries now than bought PV systems in 2021," says Anna Werner, CEO of the Swedish Solar Energy Association (Svensk Solenergi). Installations of stationary domestic solar batteries are gaining momentum across Sweden. But there are major regional differences.
