

Household solar light with two lights

Overview

What is a split-type solar street light?

R7 Series Split-type Solar Street Light 40w-300w (LiFePO4 battery with aluminum battery box separated, under the solar panel or hung on the pole. Now We have developed a full range of Split-type and all-in-two solar street light which covers different powers from 20W to 300W.

Why should you choose heisolar for a commercial solar-LED lighting system?

HeiSolar focuses on the high-quality commercial solar-led lighting system. We supplied thousands of solar street lighting systems for the UN project in past years. For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours.

Do solar street lights work for the UN project?

We supplied thousands of solar street lighting systems for the UN project in past years. For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours. Only with real high specification, the light can work well even in winter or on cloudy days.

How long does a solar street light battery last?

The battery backup provides a 2-5days autonomy for extended battery life and takes into account local weather conditions. All in two solar street lights are mostly used in commercial solar lighting projects & municipal engineering lighting projects.
