

How much does Lobamba solar modules cost

Overview

How much does a solar system cost in Bali and Lombok?

How much does a solar panel system cost in Bali and Lombok?

For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed.

How much does a solar system installation cost in Bali?

For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed. This price typically includes solar panels, inverter, and everything else you need to get a working on-grid solar system installation. Additional costs that may occur include:.

How much does a hybrid solar system cost in Lombok?

Like most business and home owners in Lombok, Mr. Y decided to go for a solar energy system with batteries, a.k.a. a hybrid system, so that he can still power his house sufficiently during power cuts. The initial investment for a hybrid solar panel system such as this might look rather high at IDR 300 million (approx. USD 15,000).

Why should you invest in a solar system in Bali & Lombok?

Additional installation costs, in case your system requires additional reinforcements, extra cabling, and so on. Bali and Lombok are blessed with abundant sunshine year-round, hence the break-even period and return on investment for a solar system are very attractive.
