

# **How much is the power supply for the Mexican BESS outdoor base station**

## Overview

---

What is a Bess system in Mexico?

BESS systems have a wide range of applications in different industrial and energy sectors. The best candidates for implementing these systems in Mexico are companies with electricity bills exceeding 400,000 pesos per month (GDMTH, DIST, and DIT rates).

Who designed & supplied the Bess (battery energy storage system)?

We collaborated with CFE (Mexican Federal Electricity Commission) to design and supply the BESS (Battery Energy Storage System) for this project. The project achieved Commercial Operation Date (COD) in April 2023, and the President of Mexico visited the energy storage plant delivered by us.

What makes a Bess system different from other energy storage systems?

Physical space: BESS systems are compact and can be installed indoors or outdoors without the need for additional infrastructure or specific conditions, as the containers or modules are designed to withstand a variety of environmental conditions. The future of energy storage is closely linked to the evolution of BESS systems.

What is a Bess system?

The BESS system is designed to store electrical energy in batteries and manage its use efficiently. Unlike a conventional battery, a BESS system not only includes batteries, but also components such as inverters, transformers, and an EMS (Energy Management System, which is control software).

## How much is the power supply for the Mexican BESS outdoor base s

### [Outdoor BESS Battery Energy Storage Cabinet System for 4 x ...](#)

AZE's waterproof type outdoor battery cabinet systems are the perfect solution for housing your Low Voltage Energy Storage systems, they are widely used in a variety of applications such as ...
